

Cub Scout and Webelos Nova Award
Out of this World
(Space Exploration)

Cub Scout and Webelos Nova Award for Science

1. Choose A or B or C and complete ALL the requirements.
 - A. Watch an episode or episodes (about one hour total) of a show about the planets, space, space exploration, NASA, or astronomy. Then do the following:
 - i. Make a list of at least two questions or ideas from what you watched.
 - ii. Discuss two of the questions or ideas with your counselor.
 - B. Read (about one hour total) about the planets, space, space exploration, NASA, or astronomy. Then do the following:
 - i. Make a list of at least two questions or ideas from what you read.
 - ii. Discuss two of the questions or ideas with your counselor
 - C. Do a combination of reading and watching (about one hour total) about the planets, space, space exploration, NASA, or astronomy. Then do the following:
 - i. Make a list of at least two questions or ideas from what you read and watched.
 - ii. Discuss two of the questions or ideas with your counselor.

Requirement 1

I chose option: A B C

Name(s) of things I watched and/or read: _____

- i. I made a list of at least two questions from what I read and watch.
- ii. I discussed the ideas and questions with my Counselor

Counselor's okay

Date

2. Complete ONE adventure from the following list. (Choose one that you have not already earned.) Discuss with your counselor what kind of science, technology, engineering, or math was used in the adventure.

Requirement 2 (*circle the Adventure you completed*)

Wolf Scouts

Air of the Wolf
 Germs Alive!
 Motor Away
 Collections and Hobbies

Bear Cub Scouts

A Bear Picnic Basket
 Robotics
 Super Science

Webelos Scouts

Adventure in Science
 Engineering
 Game Design

3. Choose TWO from A or B or C or D or E or F and complete ALL the requirements for the options you choose.
 - A. Have a star party with your den, pack, or family. (Make sure you wear proper clothing for the nighttime temperature.)
 1. Choose a clear night to investigate the stars. A fun time to watch stars is during a meteor shower. You may check earthsky.org/astronomy-essentials with your parent's or guardian's permission to find good times to watch meteors.
 2. Find five different constellations and draw them. With your parent's or guardian's permission, you may use a free smartphone application such as Google Sky Map for Android phones or Night Sky for iPhones to help identify stars and constellations.
 3. Share your drawings with your counselor. Discuss whether you would always be able to see those constellations in the same place.
 - B. Explain how "revolution," or "orbit," compares with "rotation" when talking about planets and the solar system. Show these by walking and spinning around your counselor. Do the following:
 1. Choose three planets to investigate (you may include the dwarf planet Pluto). Compare these planets to Earth. Find out how long the planet takes to go around the sun (the planet's year) and how long the planet takes to spin on its axis (the planet's day). Include at least TWO of these: distance from the sun, diameter, atmosphere, temperature, number of moons.
 2. Discuss what you have learned with your counselor.
 - C. Using materials you have on hand (plastic building blocks, food containers, recycled materials, etc.), design a model Mars rover that would be useful to explore the rocky planet's surface. Share your model with your counselor and explain the following
 1. The data the rover would collect
 2. How the rover would work
 3. How the rover would transmit data
 4. Why rovers are needed for space exploration
 - D. Design on paper an inhabited base located on Mars or the moon. Consider the following: the energy source, how the base will be constructed, the life-support system, food, entertainment, the purpose and function, and other things you think would be important. Then do the following:
 1. Draw or build a model of your base using recycled materials
 2. Discuss with your counselor what people would need to survive on Mars or the moon

E. Become an asteroid mapper. Obtain your parent's or guardian's permission and map an asteroid as part of the Jet Propulsion Laboratory and the California Institute of Technology's Dawn project: dawn.jpl.nasa.gov/DawnCommunity/asteroid_mappers.asp. Then discuss with your counselor your mapping activities, why mapping asteroids is important, and what you learned about space and asteroids.

F. Eclipses

1. Investigate and make models or diagrams of solar and lunar eclipses. (Example: You may wish to use balls of different sizes and a flashlight to represent the sun.)
2. Using your model or diagram, discuss eclipses with your counselor, and explain the difference between a solar eclipse and a lunar eclipse.

Requirement 3 (complete TWO options from A, B, C, D, E or F)

I chose options:	<input type="checkbox"/> A.	<input type="checkbox"/> i)	<input type="checkbox"/> ii)	<input type="checkbox"/> iii)
	<input type="checkbox"/> B.	<input type="checkbox"/> i)	<input type="checkbox"/> ii)	
	<input type="checkbox"/> C.	<input type="checkbox"/> i)	<input type="checkbox"/> ii)	<input type="checkbox"/> iii) <input type="checkbox"/> iv)
	<input type="checkbox"/> D.	<input type="checkbox"/> i)	<input type="checkbox"/> ii)	
	<input type="checkbox"/> E.			
	<input type="checkbox"/> F.	<input type="checkbox"/> i)	<input type="checkbox"/> ii)

4. Visit or explore. Choose A or B and complete ALL the requirements.
- A. Visit a place where space science is being done, used, explained, or investigated, such as one of the following: observatory, planetarium, air and space museum, star lab, astronomy club, NASA, or any other location where space science is being done, used, explained, or investigated
1. During your visit, talk to someone in charge about how people at the location use or investigate space science. Find out how this investigation could make the world a better place
 2. Discuss with your counselor the science being done, used, explained, or investigated at the place you visited
- B. Explore a career associated with space exploration. Find out what subjects you would need to study as you get older. Find out whether you must be an astronaut to explore space, and what other opportunities exist for people interested in space exploration.

Requirement 4 (*complete A or B*)

I chose option: <input type="checkbox"/> A <input type="checkbox"/> i) <input type="checkbox"/> ii) <input type="checkbox"/> B
